

	<b>Build Your First Drupal 7 Web Site</b>	<b>Time</b>
	<b>DURATION - 3 days including practical implementation</b>	
	<b>Total Time: 10.83 Hours</b>	
<b>1</b>	<b>Series Overview and Quickly Installing Drupal 7</b>	<b>25 Min</b>
	Introduction to the "Build Your first Drupal 7 Web Site" collection	4:37:00
	A quick tour of the web site and video player tools	7:24:00
	A brief overview of resources for quickly installing Drupal	1:47:00
	How to install Drupal like a desktop application on a Mac	6:20:00
	How to install Drupal like a desktop application in Windows	5:30:00
<b>2</b>	<b>Introduction to Our Project and Reviewing Mockups</b>	<b>34 Min</b>
	Introduction	3:15:00
	Review of the resources sent by the client	2:23:00
	Review of the home page mockup	3:11:00
	Review of the calendar, contact us and guide page mockups	4:26:00
	Recap of files in our client resource pack	0:45:00
	How to map a mockup to existing Drupal elements	4:44:00
	How to use the administration menu and breadcrumbs to get around	3:03:00
	Overview of the Appearance page, how theme settings work and how to upload a new logo	4:32:00
	How to hide the site name in the header	2:02:00
	How to work around the disappearing logo bug	4:02:00
	Chapter review and challenges for the "Introduction to Our Project and Reviewing Mockups" chapter	1:50:00
<b>3</b>	<b>How to Create and Edit Content</b>	<b>35 Min</b>
	What this chapter covers and how to change the site name	2:16:00
	How to add a new page and overview of settings on the "add content" form	6:31:00
	What "node" means and how the notifications area works	2:19:00
	How to edit a piece of content	3:14:00
	How to set the default home page	3:09:00
	How to add content as a menu item and how weight works	4:16:00
	How URL aliases work	1:44:00
	Finishing adding the About Us page	1:47:00
	How to change the position of a menu item with weight	1:15:00
	Review of the Contact Us form mockup and how the Module listing page works	5:06:00
	How to find a core module that you need and enable it	1:14:00
	Chapter review and challenges for the "How to Create and Edit Content" chapter	2:09:00
<b>4</b>	<b>How to Work With Menus, Modules and Webform</b>	<b>38 Min</b>
	How to work with the menu listing page	3:57:00
	How to work with the menu "list links" page	1:24:00

	How to enable, edit and move a menu item	4:07:00
	How menu sorting impacts menu item weight	1:40:00
	How to find help and configure the Contact module	4:53:00
	How to disable and uninstall a module	2:41:00
	How to use the Update Manager module to install a module	4:32:00
	How to set up the initial webform container	2:53:00
	How to add an input to a webform, overview of component types and input options	6:01:00
	Adding an email input and how machine names and tokens work	4:01:00
	Chapter review and challenges for the "How to Work With Menus, Modules and Webform" chapter	1:54:00
<b>5</b>	<b>How to Work With Content Types and Fields</b>	<b>41 Min</b>
	Finishing up the contact us webform	4:04:00
	How to create a single item checkbox (sign up for newsletter) with Webform	3:29:00
	Testing our contact form as logged in and logged out users (anonymous and authenticated)	2:24:00
	How to view webform submissions and set up e-mail templates	6:28:00
	How content types work	2:02:00
	How to disable "published by" information and a review of the content type edit form	3:46:00
	How to add a new content type	4:05:00
	How fields work and how to use the field edit form to change a field title	5:38:00
	How to add a new field to a content type	3:56:00
	Adding the rest of the fields we need for the Tour content type	3:23:00
	Chapter review and challenges for the "How to Work With Content Types and Fields" chapter	2:04:00
<b>6</b>	<b>How to Work With Pathauto and Introduction to Views</b>	<b>37 Min</b>
	Previewing our "add tour" form and introduction to the Pathauto module	3:06:00
	How to install module dependencies	3:49:00
	How to change automated URL alias settings for a content type with Pathauto	4:27:00
	How to find a piece of content that doesn't have a menu item	1:14:00
	How to update URL aliases after a pattern change with Pathauto	4:28:00
	How to work with shortcuts in the shortcut bar	2:00:00
	What the Views module is for and how to install it	5:28:00
	A deeper explanation of the Views module and the view listing page	1:32:00
	Filling out the "add view" wizard	3:56:00
	Overview of the "add view" settings page and how a view "display" works	5:59:00
	Chapter review and challenges for the "How to Work With Pathauto and Introduction to Views" chapter	1:55:00
<b>7</b>	<b>How to Add Fields to a View and Work With the Date Module</b>	<b>32 Min</b>
	How to add a new field to a view	3:05:00
	How to set the label, wrap HTML and set default text for a field in a view	3:31:00
	How to rewrite the output of a field to include other fields	2:57:00
	How to edit a view from the view display	1:39:00

	Adding our remaining view fields in quick succession	2:22:00
	How to adjust the sort order of content in a view	3:22:00
	How to deal with module installation errors and install the Date module	4:53:00
	How to add and configure a date field	4:58:00
	How to work with the pop up calendar and extend the year range	4:05:00
	Chapter review and challenges for the "How to Add Fields to a View and Work With the Date Module" chapter	1:53:00
<b>8</b>	<b>How to Fix Broken Views and Work With Taxonomy</b>	<b>36 Min</b>
	How to delete a field from a content type	1:17:00
	How to deal with broken views handlers and restore unsaved view changes	4:30:00
	How to modify date formats both globally and in a view	3:52:00
	How to sort view fields and fix broken sort handlers	2:42:00
	How to change view menu settings and add a header	5:00:00
	How to add a date-based filter to a view	4:41:00
	How to delete a piece of content and modify multiple pieces of content at the same time	1:53:00
	Reviewing our guide data and adding another content type	3:17:00
	A brief explanation of taxonomy	1:02:00
	How to add a taxonomy vocabulary with terms	2:11:00
	How to add a taxonomy term reference field to a content type	3:44:00
	Chapter review and challenges for the "How to Fix Broken Views and Work With Taxonomy" chapter	2:06:00
<b>9</b>	<b>How to use Term and Node Reference Fields</b>	<b>35 Min</b>
	Updating the guide automatic alias pattern and adding the guide data	4:53:00
	How to share a field between two content types and why you would want to	5:41:00
	Updating our calendar view to use a new field	3:39:00
	Overview of the multiple ways to link a Views field to other related content	1:31:00
	Overview of development (dev) versions of modules and installing the References module	2:38:00
	Adding a node reference field and updating our content	3:27:00
	Updating our calendar view to use the new node reference field	3:06:00
	How to add an autocomplete (free tagging) field to a content type	4:08:00
	How to use an autocomplete field	2:16:00
	Quickly removing a field and updating our view to use a different field	2:02:00
	Chapter review and challenges for "How to Use Term and Node Reference Fields" chapter	2:08:00
<b>10</b>	<b>How to Work With Blocks and Permissions</b>	<b>31 Min</b>
	A comparison of our current site to the mockups	2:00:00
	What blocks and regions are, and how to use the blocks administration page	4:30:00
	How to hide the user login and "Powered by Drupal" blocks	2:01:00
	How to add a "log in" menu item to the user menu	3:40:00
	How to enable a menu block and hide a block title	2:04:00
	How to hide the secondary menu (user menu)	1:28:00

	What permissions are and how to modify them	5:20:00
	How to configure search and how cron runs work	4:40:00
	How to add a new user	2:22:00
	How roles work and how to add a new role	1:58:00
	Chapter review and challenges for "How to Work With Blocks and Permissions" chapter	1:43:00
<b>11</b>	<b>Overview of Permissions and Text Formats</b>	<b>31 Min</b>
	Review of how roles and permissions work	1:24:00
	What each permission does, from the Block to Menu modules	1:15:00
	What each Node or content-related permission does	5:44:00
	What each permission does, from the Path to System modules	2:52:00
	What each permission does, from the Taxonomy to Views modules	3:37:00
	What each Webform permission does, and a review of our Guide role	2:56:00
	Different methods for testing the site as another user	1:49:00
	How to use the Masquerade module to act like another user	3:36:00
	Adding a piece of content as a Guide	2:28:00
	How text formats work	4:00:00
	Chapter review and challenges for "Overview of Permissions and Text Formats" chapter	1:34:00
<b>12</b>	<b>Configuring Text Formats and Setting Up a Wysiwyg</b>	<b>34 Min</b>
	Review of the text format settings page and how filters work	3:58:00
	How to re-order text format filters and why order matters	1:34:00
	How to configure text format filters	2:54:00
	How to add a new text format	2:11:00
	How to configure permissions for text formats	3:58:00
	What Wysiwygs are and how to install the Wysiwyg module	2:05:00
	The problems with Wysiwygs and possible alternatives	1:03:00
	How libraries work	2:39:00
	How to install the TinyMCE library for the Wysiwyg module	2:38:00
	How the Wysiwyg "Basic settings" and "Buttons and Plugins" options work	3:05:00
	How the Wysiwyg "Editor appearance" and "Cleanup and output" options work	3:20:00
	How the Wysiwyg "CSS" settings work and our Wysiwyg in action	3:13:00
	Chapter review and challenges for "Configuring Text Formats and Setting Up a Wysiwyg" chapter	1:57:00
<b>13</b>	<b>Working With Custom Blocks and Image Styles</b>	<b>33 Min</b>
	How to add a custom block	3:43:00
	The difference between "URL" and "path" and how to use a "Show on specific pages" input	2:41:00
	How to modify the visibility settings for a block	2:08:00
	Seeing our new block in action	0:50:00
	How to deal with shared field conflicts (unlimited vs. limited values)	4:33:00
	How to add and configure an image field	6:15:00

	Previewing the display of our image field	1:48:00
	How to hide a field label on a node display page	1:38:00
	What image styles are and a review of existing image styles	3:26:00
	How image style effects work and how to add a new image style	3:16:00
	How to link up an image style with an image field	1:45:00
	Chapter review and challenges for "Working With Custom Blocks and Image Styles" chapter	1:50:00
<b>14</b>	<b>How to Work With CSS</b>	<b>34 Min</b>
	A recap of what we have covered so far, and what is to come	3:24:00
	How to change the order of fields on the node display page	1:35:00
	How to install Firebug in the Firefox browser	1:10:00
	How to use Firebug to inspect any element	2:37:00
	How to manipulate CSS with firebug	3:38:00
	How to find a good selector and apply styles to a specific element	4:00:00
	How to rapidly experiment with CSS in Firebug	3:29:00
	How to install the CSS Injector module and find most module configuration pages	3:30:00
	How to add a custom CSS stylesheet to certain pages based on path with CSS Injector	4:16:00
	How to use Firebug to learn more about what an element is	1:53:00
	How to hide breadcrumbs (or any other element) using CSS	2:36:00
	Chapter review and challenges for "How to Work With CSS" chapter	1:52:00
<b>15</b>	<b>Troubleshooting Module Installation and Configuration</b>	<b>34 Min</b>
	Updating other guide nodes and using alt and title attributes for an image field	3:24:00
	Review of what we need to complete our template	2:07:00
	How to install the Media module	2:10:00
	How to find a module dependency when it is not its own module project	3:22:00
	Where to find information about a newly installed module	2:46:00
	How managed and unmanaged files work, and the benefits of using the Media module	1:41:00
	How to upload an image with the Media module and use it as a background	3:32:00
	What to do when CSS changes aren't being applied	4:54:00
	What to do when you get a fatal error and how to clear all caches	3:17:00
	How to search for an error in Google and tips for reading a long issue	3:57:00
	The difference between module development versions and official releases	1:42:00
	Chapter review and challenges for the "Troubleshooting Module Installation and Configuration" chapter	2:04:00
<b>16</b>	<b>Updating Modules and Manipulating CSS</b>	<b>33 Min</b>
	How to check for module updates from your site	2:27:00
	How to update a module with the Update Manager	3:36:00
	How and why to clear Drupal's caches	1:31:00
	How to update a module manually	4:10:00
	How to fix our issue by reading the module help page	3:43:00

	Summary of the steps we took to fix module errors	1:36:00
	How to insure image URLs work on a remote server	3:10:00
	How to remove the background color of main menu tabs	3:30:00
	What to do about disappearing CSS properties in Firebug	5:41:00
	How to change the font size of the main menu items	2:12:00
	Chapter review and challenges for the "Updating Modules and Manipulating CSS" chapter	2:19:00
<b>17</b>	<b>More CSS Updates and Troubleshooting Text Formats</b>	<b>32 Min</b>
	How to adjust CSS in the footer using Firebug for testing	6:12:00
	Adding and troubleshooting our footer CSS changes with CSS Injector	3:03:00
	Finishing up our footer margin changes	1:47:00
	How to add a repeating background image to the footer	4:45:00
	Adding a new user with a new role	3:30:00
	Giving our new user permission to add, edit and delete pages	2:23:00
	How to fix "This field has been disabled because you do not have sufficient permissions to edit it"	2:17:00
	How content and text formats are related, and how to deal with placeholder text	2:58:00
	How to integrate the Media module with a WYSIWYG	3:37:00
	Chapter review and challenges for the "More CSS Updates and Troubleshooting Text Formats" chapter	2:14:00
<b>18</b>	<b>More CSS Updates and Troubleshooting Text Formats</b>	<b>31 Min</b>
	How to turn the Media browser Wysiwyg plugin on	4:32:00
	How to troubleshoot permissions issues with a module	2:47:00
	How to find solutions on Drupal.org by using Google and reading comments first	2:33:00
	How to assess the health of a module by reviewing the module project page	4:28:00
	How to learn more about what a module does by reading the module project page	3:21:00
	Viewing a demo of IMCE and installing the IMCE module	2:21:00
	Overview of the IMCE main configuration page	1:58:00
	How an IMCE profile configuration works	4:31:00
	Comparing two IMCE configurations	1:27:00
	How to set up a new IMCE configuration profile	1:38:00
	Chapter review and challenges for the "How to Evaluate Modules and Install IMCE" chapter	1:52:00
<b>19</b>	<b>How to configure IMCE and Wrap Up Our Project</b>	<b>44 Min</b>
	How to associate IMCE profiles with user roles and upload an image	4:59:00
	How to embed an image in a Wysiwyg with IMCE	5:04:00
	Why styles sometimes display properly in a Wysiwyg but not when viewing the content	4:10:00
	Overview of two solutions to the Wysiwyg style inconsistency issue	1:56:00
	Overview of how to set up a Wysiwyg to use a drop-down selector for CSS classes	2:57:00
	How to configure the styles available in the Wysiwyg	3:05:00
	How to add a class to an element in a Wysiwyg with the "font style" plugin	0:57:00
	How to add easy-to-read aliases for class names in a Wysiwyg	1:18:00

	How to troubleshoot line break or paragraph problems in the Wysiwyg	3:20:00
	Comparing our home page to the mockup	1:36:00
	How to set a custom 404 "page not found" error page and navigate up paths	4:10:00
	Adding a missing piece of content	1:38:00
	Why it's a good idea to review all the settings when creating a piece of content	4:10:00
	Chapter review and challenges for the "How to Configure IMCE and Wrap Up Our Project" chapter	1:44:00
	Congratulations	3:37:00
